

Global Atomic Announces Accelerated Expiry of Common Share Purchase Warrants

Toronto, ON, January 21, 2021: Global Atomic Corporation (“Global Atomic” or the “Company”), (TSX: GLO, OTCQX: GLATF, FRANKFURT: G12) announced the acceleration of the expiry date of common share purchase warrants (“warrants”) issued pursuant to the Company’s Unit private placement of May 2020.

Units consisted of one common share and one-half common share purchase warrant exercisable at C\$0.85 for a period of two years from closing, Finder’s warrants issued pursuant to closing are exercisable at C\$0.67 for a period of two years from closing.

All warrants are subject to accelerated expiry should Global Atomic Corporation common shares close at or above C\$1.10 on the Toronto Stock Exchange for twenty (20) consecutive trading days and the Company issues a news release announcing the acceleration of term.

The closing price of Global Atomic Common Shares has been at or above \$1.10 for the twenty (20) consecutive trading days during the period December 22, 2020 – January 21, 2021. A total of 2,005,834 Investor warrants and 141,300 Finder’s warrants remain outstanding and will generate \$1.8 million on exercise and expire February 22, 2021.

About Global Atomic

Global Atomic Corporation (www.globalatomiccorp.com) is a publicly listed company that provides a unique combination of high-grade uranium mine development and cash-flowing zinc concentrate production.

The Company’s Uranium Division includes four deposits with the flagship project being the large, high-grade Dasa Project, discovered in 2010 by Global Atomic geologists through grassroots field exploration. With the issuance of the Dasa Mining Permit, final design in support of the Company’s Feasibility Study is on-going.

Global Atomic’s Base Metals Division holds a 49% interest in the Befesa Silvermet Turkey, S.L. (“BST”) Joint Venture, which operates a new, state of the art zinc production plant, located in Iskenderun, Turkey. The plant recovers zinc from Electric Arc Furnace Dust (“EAFD”) to produce a high-grade zinc oxide concentrate which is sold to zinc smelters around the world. The Company’s joint venture partner, Befesa Zinc S.A.U. (“Befesa”) listed on the Frankfurt exchange under ‘BFSA’, holds a 51% interest in and is the operator of the BST Joint Venture. Befesa is a market leader in EAFD recycling, with approximately 50% of the European EAFD market and facilities located throughout Europe and Asia.

The information in this letter may contain forward-looking information under applicable securities laws. Forward-looking information includes, but is not limited to, statements with respect to completion of any financings; Global Atomic’s development potential and timetable of its operations, development and exploration assets; Global Atomic’s ability to raise additional funds necessary; the future price of uranium; the estimation of mineral reserves and resources; conclusions of economic evaluation; the realization of mineral reserve estimates; the timing and amount of estimated future production, development and exploration; cost of future activities; capital and operating expenditures; success of exploration activities; mining or processing issues; currency exchange rates; government regulation of mining operations; and environmental and permitting risks. Generally, forward-looking statements can be identified by the use of forward-looking terminology such as “plans”, “is expected”, “estimates”, variations of such words and phrases or statements that certain actions, events or results “could”, “would”, “might”, “will be taken”, “will begin”, “will include”, “are expected”, “occur” or “be achieved”. All information contained in this letter, other than statements of current or historical fact, is forward-looking information. Statements of forward-looking information are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of Global Atomic to be materially different from those expressed or implied by such forward-looking statements, including but not limited to those risks described in the annual information form of Global Atomic and in its public documents filed on SEDAR from time to time.

Forward-looking statements are based on the opinions and estimates of management at the date such statements are made. Although management of Global Atomic has attempted to identify important factors that could cause actual results to be materially different from those forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance upon forward-looking statements. Global Atomic does not undertake to update any forward-looking statements, except in accordance with applicable securities law. Readers should also review the risks and uncertainties sections of Global Atomic’s annual and interim MD&As.
